

**MARC KNISLEY / P.E. , Mechanical Engineer**  
**Director of Energy Services**

Marc Knisley has been a member of the Hodge team since 2008. His thorough knowledge of codes and standards includes NFPA 90A (Non-residential HVAC systems), NFPA 101 (Life Safety Code), the International Building Code, the International Mechanical Code, the International Fuel Gas Code, the International Plumbing Code, the International Energy Code, ASHRAE Standard 62, ASHRAE Standard 90.1, and ASHRAE Guideline 14.

**Education**

*BS in Mechanical Engineering*  
University of Tennessee,  
Knoxville TN

**Registration**

*Registered Professional*  
TN + AL

He is instrumental in the coordination and management of site visits, assembling existing systems into energy usage categories, developing and writing scopes of work for Energy Conservation Measures, performing savings calculations and energy modeling, and working with contractors to obtain cost estimates. He is familiar with design and documentation to obtain LEED certification as well as performing energy calculations to obtain Section 179D tax deductions.
